

Model(s):	Infinipix Platform: TruePix (Bifrost) and NT (Vali) Series LED VideoWalls
Control Platform(s):	Control4 Crestron (SIMPL)
Driver Developer:	Intrinsic Dev, Part of Intrinsic Group Limited

Barco Residential control drivers (as listed above) for the LED VideoWalls are developed by Intrinsic Dev.

Driver(s) must be downloaded from <https://www.intrinsicdev.com/brands/barco/>

Intrinsic Dev account registration is required, however, is automatically approved upon registration.

Barco Residential commissioned drivers (as listed above) are free of charge, other Barco drivers may be chargeable.

To obtain a license for the driver(s) you must register the projects control processor, for this you will require it's MAC address.

Licenses are activated within 5mins of registration.

If you require driver support please contact:
Support@intrinsicdev.co.uk

If you require integration support please contact:
David.Robledo@barco.com (UK)

NOTE: Drivers require an active internet connection. If this is not possible, contact Support@intrinsicdev.co.uk who can provide a “marine” license.
