

Enterprise-class Server R360

Barco certified enterprise-class server for networked visualization environment

Barco certified enterprise-class server for networked visualization environment

The Enterprise-class Server R360 is the successor of the Enterprise-class Server R350. It is a powerful computing server handling multiple tasks in a networked visualization environment. It unleashes the power of the latest Quad-Core Intel® Xeon® processors, and best-in-class media integration capabilities. The Enterprise-class Server R360 represents a fully qualified platform for Barco's CMS network-centric solution.

Scalable, fully network centric integration

Perfect choice as a hardware server platform for:

- Barco TransForm N Management Server
- Supporting small up to very large multi-node and multi-source system setups

Robustness and reliability

- 19" rack mounted chassis
- Redundancy options
- Trouble-free, Barco-qualified system component
- Dell PowerEdge R360 based OEM model guarantees operational efficiency and server reliability

Product specifications

ENTERPRISE-CLASS SERVER R360

General specifications

Network connection	2x1Gb/s LAN
CPU	Intel® XEON® E-2434
Hard disk	2 x 480 GB Solid State Drive, Hot-plug RAID-1
Memory	16 GB
Redundancy	Hot-plug redundant power supply RAID-1 redundant disk drives
Weight	max. 13,23 kg (29,17 lbs)
Power supply	100-240V AC., 4.8 A-2.4A, 50/60 Hz
Power consumption	2x600W Hot-plug redundant
Housing	19" rackmount 1U
Dimensions	482 x 42.8 x 598.9 mm (18.97" x 1.68" x 23.57")

Operating conditions

Noise level	max. 40 dB(A)
Environmental temperature	10-35°C 50-95°F
Humidity	max. 80% (non-condensing)
Regulation Compliance	TBD
Order Information	R9836360 Enterprise-class Server R360 R983634099 R340/R350/R360 Sliding Rails & Cable Management Arm

System integration

Supported systems	Barco TransForm N Management Server
System management	IPMI 2.0, SNMP (iDRAC9 Express)
