

An immersive conference experience for huddle spaces and more

with Huddly and ClickShare Conference

Huddly intelligent cameras and Barco ClickShare Conference join forces to help you create engaging hybrid meetings. Together we enable an immersive video meeting experience for huddle spaces and other types of meeting rooms.

In the current hybrid work environment video conferencing lies at the heart of good collaboration. Huddly cameras are designed to make it easy for hybrid teams to work together. They feature 150° ultra-wide-angle video that ensures that everyone is seen and included. Huddly IQ uses smart features like Genius Framing to provide immersive video experiences that makes it easy to get work done together. Huddly GO is perfect for flexible collaboration scenarios with its compact design and USB connectivity.

In addition, intuitive teamwork, hassle-free content sharing, one-click agnostic, wireless conferencing and robust security are the hallmarks of ClickShare Conference. Together they bring a genius combination for all your 'Bring Your Own Meeting' needs and hybrid meetings.

Connect and engage with remote workforce from any huddle, small or medium meeting space. Use the videoconferencing solution you prefer and connect wirelessly with ClickShare Conference room system to the Huddly IQ or Huddly GO to enjoy a great video experience both in-room and remote. Plug-and-play solutions that are easy to set up and simple to use, tailored to your meeting room size and needs.

Benefits

Huddly GO

Engage in-room and remote participants

Huddly's cameras enhance video collaboration in small to medium meeting rooms. With a 150° ultra-wide-angle lens, they ensure that everyone is seen, even those who are close to the camera. Huddly IQ features smart experiences like the intelligent framing of participants, so that the team is always in full view.

With ClickShare Conference you start a video meeting from your laptop with only one click, connect wirelessly to the Huddly meeting camera and audio USB-devices for truly engaged discussions with remote colleagues, all feeling part of the conversation.

Huddly IQ

An agnostic solution

Fully compatible for BYOD, working with any device - a laptop, mobile or tablet to share content or collaborate interactively. ClickShare Conference allows you to start a remote meeting with the UC & C platform of your choice, from your own laptop, using the Huddly IQ camera and any audio USB-peripherals available in the meeting room.

Effortless setup, simple to use

Tested to work seamlessly together, setting up our combined solution couldn't be simpler to install. Just plug it in and it works. Starting meetings, sharing content on a main meeting room screen is simple. No need to worry about which cable to use or complex user interfaces to tackle, with ClickShare Conference collaboration is intuitive and natural, made for real, human interaction. In addition, Huddly cameras are software-defined and get even better over time with continuous enhancements.

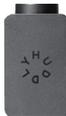

ClickShare Conference

Perfect for multiple scenarios

Huddly cameras and ClickShare Conference offer an immersive conference experience for huddle rooms, medium-sized meeting rooms, open collaborative environments and more.
