

# Nio Color 2MP HE (MDNC-2221 HE)

2MP display for the dental practice (room class 6)

Barco's Nio Color 2MP has everything it takes for your dental practice: a professional, sleek design for the best viewing ergonomics and full compliance with the DIN 6868-157 standard. Your benefits? Incredibly precise images, automated calibration (thanks to MediCal QAWeb), and a lifetime that is 10 times longer than that of a commercial display thanks to the high-quality LED backlights.

## Smiling bright

Nio Color 2MP is fully compliant with the latest DIN standards thanks to MediCal QAWeb and the Nio front sensor that work wonderfully together to ensure automated DICOM calibration and internal image stabilization. That's exactly how it provides the crisp, high-contrast detail you need for fast, more effective viewing of dental images. The result? Consistent, stable and bright images at all times, even in brightly-lit treatment rooms!

Combined with the benefits of a centrally managed, fully integrated and automated DICOM QA and reporting -removing the need for manual compliance and calibration -Nio Color 2MP puts a smile on your face while you take care of that of your patients.

## Barco's dental practice package includes:

A Nio Color 2MP display with unique front sensor, an additional LCD sensor for automated ambient light control, all bundled with Barco's MediCal QAWeb software optimized for the new DIN standard.
