

Claim your **I600 rental package** at special **launch price!**

Where power meets portability. With the I600-4K15, you find all your Barco flagship projection capabilities boxed into a smaller, lighter single-chip unit. Combined with a full range of peripherals and a large fleet of swappable ILD lenses, the I600s are ready to take the stage in your toolkit for mid-sized events!

This is the perfect time to add the I600 to your fleet, and get its complementary rental peripherals at an attractive package price!

The ultimate I600 rental bundle includes:

- an I600-4K15 projector (black or white chassis),
- a stackable and adjustable rigging frame for I600,
- a lens pack including one shorter throw (1.0 - 1.4:1), one medium throw 1.4 - 2.1:1) and one long throw (2.1 - 4.0:1) ILD lens,
- a two-years Insights Management Suite Monitor subscription,
- and an I600 flight case for safe and secure transport (optional).

You can opt to complement your package with an optional DP1.2 Quad 12G SDI input card at a promo price of €1.000.**

Contact your Barco representative for all information on this unique promo package.

Benefit from this launch price now, as the promo is only valid for orders confirmed before 31/12/2024!

Get a 5% additional discount on a complete I600 rental package.*

* This promotion applies to standard partner pricing for orders of minimum four units confirmed before 31/12/2024.
** The optional 12G SDI cards are limited to maximum 1 per rental package.
