

# JAO Community Manager (JAO SW-SL-JCM)

System management software

The JAO Community Manager includes an easy-to-use yet powerful back-end management console for system administration, patient management, staff management, and billing services.

Barco's JAO Community Manager software offers:

- Terminal management
- Reporting
- Staff management
- Content management
- Prices & information
- Device management
- Licence management

Barco's bedside computing software is ideal for use on its JAO smart terminal range and runs on a wide variety of hardware and third party systems.
