

# Special Q4 2020 video wall controller offer

Video wall management at a very attractive price

full HD  
1920 X 1080

- **Three video wall controller options**
- **High-quality and price-competitive offering**
- **Suitable for multiple video wall set ups (up to 16 HD resolution)**
- **Designed for control rooms, meeting rooms, lobbies**
- **Wall management software included for different needs and use cases**

A video wall is an indispensable asset to your organization. Whether it is to keep an overview of all information in a control room, to collaborate with colleagues in a meeting room or to wow visitors in a lobby, a large display surface will always prove its added value. For the final quarter of 2020, Barco presents a great offer on video wall controllers, letting you discover the many benefits of managing your video walls at a very attractive price.

The brain of a video wall solution is the controller. Because every use case has its own specific needs and requirements in terms of number of sources, processing power and software, we have selected 3 possible controllers for you to choose from in this bundle. Varying from a basic to an all-round UPW-420, and the advanced TransForm N NSD-420, you can pick the exact controller for your content needs and application.
