

weConnect

Subscription-based software solution designed for teaching/training & learning needs across the entire campus/company, whether on-site or online

- Teach & train online, just like you are used to
- Fully connected, even remote
- Higher engagement rate, for all
- Innovate the learning experience, in practice
- Increase ROI with future proof software

weConnect is a subscription-based software solution designed for teaching/training & learning needs across the entire campus or company, whether on-site or online.

Integrating with the devices of your choice, people connect remotely or on site. Purpose-built, weConnect enhances learning outcomes through better engagement without boundaries.

The weConnect subscription includes:

- Software: weConnect licence - Credit base model
- Hardware: NCN-Base units - Number of units sold depending on the setup size

The weConnect service program offers:

- Professional Services: Installation services, Live support
- EssentialCare: Hardware support (NCN-Base nodes)
- EssentialCare Pro: Software support (support services and onsite services)

The weConnect setup requires third party hardware:

- Microphones, cameras, speakers, screens. These items are sold and installed by our AV and partner integrator.

General information:

- Access via web browser (Google Chrome, Safari, Microsoft Edge)
- System language: English
- Available on desktop and tablet

Configure your weConnect classroom now in the Barco Store.
