# TMS software suite

Managing your multiplex from a central location

Powerful

The powerful Barco Theater Management System (TMS) software suite will boost your operational efficiency and will save you many hours of precious time. Thanks to the system's advanced remote capabilities, you and your staff no longer need to go inside each projector booth all the time to ingest content or to run a show.

Time-tested

Barco's TMS is the result of more than five years of intensive R&D and many years of strong commitment to the cinema industry. This solid expertise has developed into a highly reliable platform that brings maximum uptime to your theater.
