# QDX-N4K45

37,500 lumens, native 4K UHD, 3-chip DLP laser phosphor large venue projector

- Stunning experiences thanks to high-brightness native 4K images
- Next-gen Pulse electronics with more processing power
- Durable design for maximized ROI
- Access to Barco's cloudbased Insights
   Management Suite

Designed to deliver brighter, sharper, and lighter projections with unmatched speed, the QDX ensures immersive visuals that captivate audiences while offering an impressive return on investment.

#### Unprecedented image quality

The QDX-N4K45 projector boasts ultra-high brightness capabilities of 37,500 lumens, providing clear and vibrant images in any setting. Utilizing the advanced Barco 0.98 DMD chip, it produces stunning native 4K picture quality with rich, lavish colors. Enhanced by our patented Pulse electronics, enjoy ultra-fast processing and high bandwidth support up to 8K@60Hz or 4K@240Hz for smoother images and sharper pixels.

#### **Maximized ROI**

The QDX is the world's most compact and lightest projector in its category, with everything at hand to maximize your ROI. It integrates seamlessly with your existing Barco equipment, including rental frames, flight cases, and TLD+ lenses. Fully compatible with Barco's smart peripherals and software tools, it ensures maximum return on your investment.

## High reliability

Built for longevity, the QDX projector maintains its stunning brightness and image quality over time. Its modular design allows for easy maintenance, and its advanced air filter system ensures reliable performance even in the harshest environments.
