RPC-E2

원격 제어 패널

This product is exclusively sold and supported by LANG AG

The RPC-E2 is the first remote control panel concerted to the Barco E2 and S3-4K seamless switchers. It allows for remote operation from the control desk.
Illuminated keys with an explicit actuation point demonstrate the professional design of this control unit.
The menu navigation is display supported and allows for intuitive handling.
The recall and execution of stored presets can be easily be processed via the RPC-E2.
