

# スマート・テーブル

世界初のモバイル・インタラクティブ患者ケア・システム

- 患者のいる場所で関わり合う
- より良い成果、より良い評価
- 病院を強化する

Barco's Smart Table is a fully integrated, easy-to-use system that empowers patients to:

- View interactive, educational materials about their condition so they can better participate in their plan of care
- Watch TV and movies, surf the Internet, and even play video games
- Order meals and make service requests
- Stay in contact with family and friends
- Take satisfaction surveys in real time

Barco's innovative Interactive Patient Care systems streamline routine tasks and reporting at the point of care enabling clinicians to:

- Rapidly and securely login to view and interact with the patient's EMR
- View and share medical information and images with the patient at the bedside
- Collaborate with patients about their course of treatment

Barco's mobile solution is wireless, battery-powered and requires no complex installation.

You can rapidly deploy this solution to both inpatient and outpatient settings throughout the hospital. It even attaches to existing bedside cabinets.
