

Billing Server (JAO SW-SL-BIL)

Automated service invoicing software

With the integrated billing system, patients can purchase services using a personalized card or PIN code with Barco's Smart Terminals.

Flexible billing options are possible to allow individual pricing structures for private and non-private patients, or different content for children's and adult wards.

Barco's Billing Server licence features:

- Price & information packages
- Service packages (e.g. TV packages, information packages...)
- Telephone flat rates
- Subscriptions
- Billing plan groups
- Prepaid or postpaid options
- Configurable billing options (card deposit, account opening fee...)
- Invoice overview and generator
- Transaction and account history overview

Barco's bedside computing software is ideal for use on its JAO smart terminal range and runs on a wide variety of hardware and third party systems.

Product specifications

BILLING SERVER (JAO SW-SL-BIL)
