

# wePresent WiPG-2000

With features like an on board USB media and document player and a streaming-video, WiPG-2000 is an affordable solution for conference rooms and boardrooms. This product has been discontinued. For its replacement,

- Greater networking flexibility by providing various network access solutions: wired LAN, wireless LAN or both at once.
- Insert a USB token into your wePresent to open files, view documents and images, or play audio and video media.
- Stream video files to the wePresent with full 1080p resolution and no latency.
- On screen annotation for more interactive presentations.

Like all wePresent models, WiPG-2000 offers cross-platform compatibility allowing Windows, Mac OS, Android and iOS devices to present and interact together. WiPG-2000 also offers basic support for Apple AirPlay, allowing users to present using Apple's native protocol.

## Using technology to bring people together

WiPG-2000 offers all the features found in the WiPG-1000 plus smart and considerate upgrades. The on screen annotation and virtual whiteboard features enable presenters to highlight key points and elaborate on ideas during their presentation. Using a USB mouse plugged into the unit, presenters can easily annotate on screen and access conference control features for moderators without a touchscreen display.

## On board video and media player

Using the onboard USB port, presentations of documents, media and video can be completed without any PC/Mac/mobile device. Guests can connect and present using a USB token that runs MirrorOp software without installation on their device or they can launch software directly from the wePresent unit, enabling guests to present without installing software.

## Engagement tools for meeting and learning

With webslides, presenters can ensure their audience remains engaged and focused on the content being shared. With this feature enabled, all connected audience members can view content being projected to the display and any on screen annotations on their own device in real time.

1 to many distribution allows presentation content to be displayed simultaneously to multiple network-connected wePresents, an ideal solution for large meeting or learning experiences.

WiPG-2000 offers flexible and affordable solutions for all your meeting and learning presentation needs.

**Product specificaties****WEPRESENT WIPG-2000**

General specifications	
Besturingssysteem	Windows 7, 8, 10 and above Mac OS X 10.9 and above Android 4.0 and above iOS 9 and above
Video-uitgang	1 x HDMI 1 x VGA
Framesnelheid	up to 30 fps
Uitvoerresolutie	up to 1080p
Verbonden gebruikers	up to 64
Bronnen	up to 4 simultaneously with fixed screen layout
Audio-uitgangen	HDMI analog via audio jack 3.5mm
Authenticatieprotocol	WPA WPA 2 PSK WPA enterprise
Protocol voor draadloze overdracht	2.4G (b/g/n) / 5G (a/n) switchable
Bereik	up to 30m
Interfaces	1 x 15 pin VGA (back) 1 x RJ-45 ethernet LAN (back) 1 x HDMI (back) 2 x USB 2.0 (front) + 1 x USB 2.0 (back) 1 x Stereo phone jack (back) 1 x LED power button (front) 1 x Reset button (bottom)
Vermogen	External power adaptor (5VDC, 2.6A) Power over ethernet (4.4W)
Energieverbruik	15.3W (full load power consumption)
Warmtedissipatie	18.755BTU/hr
Gewicht	801g (with packaging) 293g (without packaging)
Afmetingen	216 x 220 x 66mm (antennas disconnected, with packaging) 159 x 91 x 29.9mm (antennas disconnected, without packaging)
Bereik bedrijfstemperatuur	0° C~40°C
Vochtigheidsbereik in bedrijf	≧ 90%
