

Shure and Barco ClickShare Conference Solutions

High quality audio and wireless conferencing

The powerful combination of Shure networked audio solutions and ClickShare Conference has just what your business needs. In a hybrid and remote workplace, you want to rely on effective collaborative solutions in any meeting room. Together we help you to bring engaging meeting experiences to all employees, enable closer collaboration and, in the end, improve your business outcomes.

Flawless meeting audio and seamless BYOD solutions, at any scale

Shure's product portfolio includes the complete audio signal chain from microphone to DSP to loudspeaker. Offering both high-end performance with Microflex Ecosystem products and straightforward audio and control solutions for video conferencing in any meeting room with Stem Ecosystem solutions. ClickShare Conference shares content from your laptop on the meeting room display and wirelessly connects to the cameras, speakers and mics in the room for better hybrid meetings. Our joint flexible solutions fit environments of all types with unmatched ease of deployment, less complexity and remote management.

Benefits

Shure Microflex Ecosystem

Shure Stem Ecosystem

Barco ClickShare Conference
