

Bring simplicity back to conferencing

with Bose Work and ClickShare Conference

In changing and uncertain times, the key to keeping work moving is simple — keep people connected. Some people are in the building, some are remote — so everyone's in hybrid meetings all day. So Bose and Barco ClickShare are now partnering to make conferencing even simpler.

See more. Hear more. Work better. Bose and ClickShare Conference

Bose Work solutions help teams collaborate more effectively, moving beyond "good enough" audio and video so interactions are more natural and people can hear more, see more, understand more — and work better. And ClickShare Conference shares your apps wirelessly on the room display and connects them to the camera and speakers in the room for better hybrid meetings. In less than seven seconds you conference, collaborate and click with a secure, connected and cloud-managed solution. Bose Work solutions are certified for use with Barco ClickShare Conferencing for easy, intuitive, and clutter-free meetings that make the new era of hybrid work simply work for everyone. Our products integrate seamlessly with existing platforms, bringing enhanced video and audio performance to popular third-party cloud services.

Benefits

A trusted solution from two premium brands

Bose, a globally respected audio company and Barco ClickShare, leader in wireless presentation and conferencing, have joined forces to offer you a tested and certified solution that works seamlessly to deliver better hybrid meetings.

A simplified conferencing experience

The joint solutions require minimal set-up, are easy to operate and demand less troubleshooting from IT or Facility colleagues. With ClickShare Conference there is no software needed, no touch panels to control, no settings to be managed: it couldn't be more simple to use, you only need one click to join the call, share content or sync audio and video. Together Bose Work solutions and ClickShare Conference reliably facilitate clear communication...all wirelessly from your laptop.

Seamless integration with UC&C platforms

Bose Work solutions and ClickShare Conference integrate seamlessly with most unified communications & collaboration (UC&C) platforms, bringing wireless conferencing and enhanced video and audio performance to popular third-party cloud services.

Flexible, engaging solution portfolio

From simple huddle spaces to the most demanding rooms, Bose work solutions and ClickShare Conference solutions are turning any room into a hybrid collaboration space. Together we deliver a consistent, premium performance making interactions more natural, and meetings more productive so everyone feels more connected and engaged.

Bose

Bose Corporation was founded in 1964 by Dr. Amar G. Bose, then a professor of electrical engineering at the Massachusetts Institute of Technology. Today, the company is driven by its founding principles, investing in long-term research to develop new technologies with real customer benefits. Bose innovations have spanned decades and industries, creating and transforming categories in audio and beyond. Bose products for the home, in the car, on the go and in public spaces have become iconic, changing the way people listen to music. Bose Corporation is privately held. The company's spirit of invention, passion for excellence, and commitment to extraordinary experiences can be found around the world – everywhere Bose does business.
