Loki

Unmistakably Barco Residential - precision engineering and manufacturing at its finest.

- Theater & Media Room Series
- 4K UHD Resolution (3,840 x 2, 160)
- Laser Phosphor
- Up to 12,000 ANSI Lumens

Loki's alluring image quality is unmistakable, right from the very first encounter. Striking and assertive, his soul is a dual laser light engine, coupled to awardwinning DLP technology and world-class optics.

Professional grade optics

By basingLoki's optical engine on a proven architecture, incorporating custom designedaspherical glass elements, and enhanced low dispersion glass lenses, imagequality is in a class of its own. Contrast is not only increased, but the detailwithin the darkest parts of the image are more visible.

State of the art electronics

Thanks toour unique single step processing technology (SSPTM), Pulse electronics are designed toprocess 4K UHD, HDMI 2.0a, HDCP 2.2 and HDR10 signals with extremely lowlatency.

Loki usesthe very latest 0.9° DMD DLP chipset, to display flawless 4K UHD (3,840 \times 2,160 px) images on screen.

Laser light source

Outstandingimage quality requires an exceptional light source, which is why Loki uses our brand-new dual laser engine which delivers upto 12,000 ANSI lumens output.

Alongsidesignificantly improved image uniformity, lasers last longer than traditionalprojector lamps, offer great image quality consistence over their lifetime, areless fragile and offer near instant on/off performance.

Liquid cooling

Loki hasdeparted from a pure fan based cooling system, opting instead for a liquidcooling PID regulation system. This combined with our simulation grade warp engine allows Balder to operate at any angle (free rotation), offering new possibilities when it comes to architectural integration.

Requisitos de segurança	This projector is Risk Group 2 (RG2) according to IEC EN 62471-5.
	This projector may become Risk Group 3 (RG3) when an interchangeable lens with throw ratio greater than 3.15 is installed.
	For Northern America, installation requirements according to Risk group 3 (RG3) must be followed when interchangeable lens with throw ratio greater than 2.33 is installed.
	Refer to the installation manual for further information.
24/7 operation	This projector is designed and warranted for heavy duty 24/7 operation. Specific measures and design considerations have been made in order for it to comply with stringent requirements in challenging applications.
Garantia	Limited 3 years parts and labor Extendable up to 5 years
*	Firmware upgradable Please contact an authorized Barco representative for details
